

UTP CAT6 network cables

Unshielded twisted 4-pair cable (UTP) CAT6 is the latest generation of Gigabit Ethernet technology. It supports speeds of up to 100Mbps, gigabit speeds up to 1000Mbps and the latest 10GbE standards. RJ45 plug to plug, over-moulded connectors with strain relief to ensure minimal bend radius, snag free design. Ideal for connecting PC, MAC, Laptops, SMART TVs and other network devices to a network or modem router/ switch for network connection

Model no.	NETC61M	NETC63M	NETC65M	NETC610M
Length (m)	1	3	5	10
Colour	Black			
Net. Weight (kg)	0.05	0.1	0.15	0.25
Connection	RJ45 – RJ45			
Standard	CAT6, ISO/IEC 11801, TIA/EIA 568B			
Warranty	1 year			
Construction	PVC			
Origin of manufacture	China			
Declaration of Conformity (held on file)	Yes			
EAN	5055559188605	5055559188629	5055559188643	5055559188667
